About

After several years working as an automotive electrician, I chose to retrain in web development. Self-taught for nearly a year, I am now completing a Bachelor's in Application Development at O'Clock school. Curious and dedicated, I love to build modern web applications.

Skills

- HTML, CSS & Tailwind
- JavaScript & TypeScript
- ReactJs, NextJs, Redux
- NodeJs & Express.js
- PostgreSQL
- Git & Github
- French (native)
- English (B2 - preparing TOEIC)

Projects

- **Traduxo - Smart Translation App**
 - **Live:** <https://traduxo.app>
 - **GitHub:** <https://github.com/JordanDonguy/traduxo>
 - **Project:** Built a responsive Next.js app using the Gemini API to deliver natural translations, real-case examples, and idiom suggestions, improving on typical translator tools.
 - **Tech:** TypeScript, Next.js, Tailwind CSS, Prisma, Gemini API, Neon, Vercel, Cloudflare
- **Aria - AI Chatbot App**
 - **Live:** <https://chat-with-aria.vercel.app>
 - **GitHub:** <https://github.com/JordanDonguy/aria>
 - **Project:** Built a modern, responsive Next.js chatbot using the Mistral API and Supabase, featuring secure authentication, conversation storage, and real-time AI-powered responses.
 - **Tech:** TypeScript, Next.js, Tailwind CSS, Mistral API, Supabase, Vercel
- **Guitar-Shop - Full-Stack E-Commerce Website (demo)**
 - **Live:** <https://app.guitar-shop.store>
 - **GitHub:** github.com/JordanDonguy/guitar-shop-backend
 - **Project:** Built a full-stack demo e-commerce guitar store with a responsive React frontend and Node.js/Express backend, featuring product browsing, cart, checkout, user authentication and newsletter subscriptions.
 - **Tech:** React, React Router, Tailwind CSS, Express.js, PostgreSQL, Northflank, Supabase, Cloudflare

Work experiences

- **Automotive Electrician (2021 - 2024)**
Renault Trucks (Bourg en Bresse - France)
 - Installed embedded electronic equipments
 - Configured vehicle electronic systems
 - Diagnosed electrical faults

Education

- **Bachelor – Application Developer (CDA)**
O'Clock School (Paris - France)
- **Full-Stack Engineer Certificate**
Codecademy.com
- **BTS AVA (Industrial vehicles maintenance)**
CFA de Mâcon (Mâcon - France)
